

'A Review and What's New' about Jacksonville-area Airspace

Aloha! The Jacksonville FAASteam is very pleased to once again welcome Robert Kamm of the Jacksonville TRACON! Mr. Kamm will give us a refresher on operations within the local Terminal Radar Approach CONTROL environment, system operations, and review operational safety, as well as bringing us up to speed on "the duck."

We'll discuss local sectors, sector and controller overlap, stadium TFRs, and more. We'll also discuss why it's always to your advantage to be in communication with ATC. Most of this is going to come down to helping you with a very important thing: Risk Management. And of course, there will be a question and answer session to follow.

Directions: Jacksonville Airport Authority - Craig Airport conference room located at the base of the Control Tower. If flying in, please note that Sky Harbor FBO is closest to the conference room.

A message from the National FAASteam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
